

GROW FAST

(ON-STIM)

Soy Protein Hydrolysate
Amino Acids 80% and 14% Nitrogen

Features & Benefits

Superior Quality

Experience the superior quality of Grow Fast, an organic water-soluble biostimulant derived from non-GMO soybeans via enzymatic hydrolysis.

Unlike many protein-based fertilizers, Grow Fast avoids harsh chemical treatments, preserving its suitability for direct uptake.

The organic nitrogen complex promotes a healthy soil biome, supporting beneficial bacteria and improving overall nutrient absorption, leading to enhanced plant growth and yield.

The Power of Grow Fast

Unlock a multitude of benefits with Grow Fast with its unique nutrient profile. Grow Fast delivers the following benefits:

Stimulate Growth

Promotes robust root and overall plant growth.

Stress Resilience

Boosts plant resilience to drought and saline soil stress.

Enhance Nutrient Availability

Increases Nutrient density, improves taste and extends shelf life.

Increases Yield

Facilitates earlier harvesting with increased crop volume and improved quality.

Improves Nutrient Flow

Leading to enhanced flowering and fruit development.

Product and Company Identification

Product name: GROW FAST (ON-STIM) 14-0-0
(NON-GMO Soybean Source)
Manufacturer: Karyotica Labs Inc.
Email: info@karyotica.ca

Applications

Grow Fast is recommended for bi-weekly application across a broad spectrum of horticultural and field crops.

This product is a water-dispersible powder, designed for simple application via irrigation.

(Before application, do a "jar test" to test compatibility with various crop inputs)

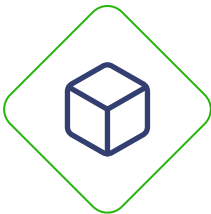

Crop	Dosage
Greenhouse and garden plants	5 g (1tsp) per 4 L (1 US gal) of water.
Field Crops and Vegetables	100-200 g (3.5-7.0 oz) in 200 L (~52 US gal) of water per acre during rapid growth or nutritional stress periods.
Grapes and Berries	100-200 g (3.5-7.0 oz) in 200 L (~52 US gal) of water per acre after active growth begins.
Turf	150-200 g (3.5-7.0 oz) in 200 L (~52 US gal) of water per acre.
Hydroponic/Aquaponic	30-50 g (1-1.8 oz) in 200 L (~52 US gal) of water.
Flowering and Ornamental plants	5 g (1tsp) per 4 L (1 US gal) of water.

Packaging

Available in Different Sizes

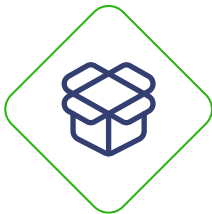

500 g (1.10 lb)

1 Kg (2.21 lb)

25 Kg (55.12 lb)

Customer required sizes

Handling & Storage

- Keep out of the reach of children.
- Keep working place well ventilated; no special precautions are needed under normal use conditions.
- Avoid contact with eyes, skin, and clothing.
- Store in dry, cool, and well-ventilated location. Keep the container closed when not in use. Avoid sub-freezing temperatures and temperatures above 48°C.
- Check MSDS for more details.
