

Material Safety Data Sheet

Ingredients

Name	: NON-GMO SOYBEAN
Appearance	: Light brown powder.
Total amino acid	: 80% min.
NPK	: 14-0-0, CAS# 68607-88-5 and #68308-36-1

Hazards Identification

This product contains soy; may cause reactions in sensitive individuals.

First-aid measurements

- Eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. Assure adequate flushing of eyes by separating eyelids with fingers. Consult with a physician.
- Skin contact: Rinse immediately with soap and water. Get medical advice if irritation develops. Get medical aid if irritation develops or persists.
- Inhalation: Move to a well-ventilated area. If not breathing, give artificial respiration. Get medical aid if a cough or other symptoms appear.
- Ingestion: Never give anything by mouth to an unconscious person. Get medical aid. Do NOT induce vomiting. Consult with a physician immediately.
- **In case of emergency, call 911.**

Accidental Release Measures

- Personal precautions: wear protective equipment: goggles, gloves and protective clothing—flush area with water to remove final traces and follow local and national guidelines on disposal.
- Environmental precautions: No ecological problems are to be expected.

Fire-Fighting Measurements

Wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Extinguishing media: Use the agent most appropriate to extinguish fire. In case of fire use water spray, dry chemical, carbon dioxide, or appropriate foam.

Physical and Chemical Property

- Vapor Pressure: Not determined
- Vapor Density: Not determined
- Boiling Point: 101.6°C
- Explosion Properties: None
- Oxidizing Properties: None

- Appearance: Clear to slightly hazy, amber liquid
- Odor: Characteristic
- Solubility:750g/L
- pH: 4.5 – 6.0

Stability And Reactivity

Chemical stability: No known hazardous reactions. Stable under normal temperatures and pressures.

Materials to avoid: Keep away from strong acids and bases

Hazardous decomposition products: None known.

Toxicological Information

No ecotoxicity data available. As the product is derived from food product, there is no ecological problems expected. Not expected to be bio-accumulative in aquatic organisms

Disposal Consideration

No specific precautions required. Follow local or national guidelines.

Transport and Regulatory Information

No specific requirements or restriction on transportation by land, sea, or air.
